

## THE COLMAN GROUP INC.

**SUSTAINABILITY MISSION:** The Colman Group believes in working toward global sustainability as an ongoing process. Our goal is to continuously reach toward sustainability through product innovation, by operating responsibly in our buildings and with our people, and by reducing our environmental footprint throughout our world-wide supply chain network of partner and transportation companies.

### SAN JAMAR

products are durable smallwares and equipment that promote the best operating practices in health protection, hygiene, food safety and consumables management.

### CHEF REVIVAL

apparel and tools are classic styles and last, often for years and years. Chef Revival Tools promote better health through burn and cut protection.

## OUR BRANDS

stand for something important in the market, and the core benefits of our brands promote sustainability. We believe that protecting health is a key aspect of sustaining our planet and its people. We also believe that good quality and design promote sustainability because long-useful products promote less waste.

### TO ACHIEVE OUR MISSION, WE WILL:

1

#### DRIVE PRODUCT INNOVATION

by combining health protection, safety and comfort with quality and the best in functionality.

2

#### OPERATE RESPONSIBLY

in our own buildings and with our people.

3

#### REDUCE OUR ENVIRONMENTAL FOOTPRINT

throughout the world-wide supply chain we share with our upstream and downstream business partners.

“Working toward global sustainability is an ongoing process.”
